 At #HWM8BF, #Huawei's Ken Hu shared that the best way to solve problems with #5G is to focus on real needs in real scenarios & build up the capabilities to meet those needs. Read on to learn more:
[tinyurl.com/y4ht7cd6](#) #5GForGood

 The applications of 5G in industries require that the most crucial requirements be identified first. Then, we can prioritize the capabilities that we enhance based on these requirements, so as to further improve our business propositions and work partners to explore the new value of 5G.
Ken Hu
 Deputy Chairman, Huawei

The ultimate goal of innovation? To make life better for people around the world. More via [@DebraRuh](#) [@RuhGlobal](#)

Why don't you focus on human beings? And why don't we focus on how technology can support humans. It is not acceptable, and I just hope that everyone in corporate America hears me, it is no longer acceptable to think it is too hard to do this.

- Debra Ruh, Chief Executive Officer, Ruh Global IMPACT, Huawei's Innovation Summit
